Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1 Application Submission	Stage 2 Evaluation & Prediction	Stage 3 Decision & Notification
Actions <i>What does the customer do?</i>	- Fills out the credit card application form. - Provides personal, financial, and employment details. - Submits the application.	- System validates and checks the application data. - ML model predicts the approval probability. - Application is reviewed based on rules and prediction.	- Receives approval or rejection decision. - Views credit limit (if approved). - Seeks reason and next steps (if rejected).
Touchpoint <i>What part of the service do they interact with?</i>	- Online application form - Document upload - Submit button	- Backend system & ML model - Verification services (e.g., credit bureau) - Rules engine	- Email/SMS notification - Application status page - Customer support (if needed)
Customer Thought <i>What is the customer thinking?</i>	- I hope I fill all details correctly. - Will I be eligible for this card? - Is my information safe?	- How can they decide so quickly? - Will the system evaluate my profile fairly? - What factors are they considering?	- Will my application be approved? - If rejected, why? - What can I do to improve my chances next time?
