

Project Demo Planning

Date	2 July 2026
Team ID	XXXX
Project Name	Credit Card Approval Prediction
Maximum Marks	1 Mark

Project Demo Planning

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Project Introduction	Introduce the Credit Card Approval Prediction project, explain its objectives, the need for automation, credit card approval using Machine Learning.	5	M. Nagarishitha
2	Problem Statement	Explain the challenges of manual credit card approval and how the ML model helps make faster and more accurate approval decisions.	5	M. Nagarishitha
3	Solution Overview	Describe the proposed ML solution, project workflow, model training, and prediction process.	7	M. Nagarishitha
4	Dataset & Preprocessing	Explain the dataset, handling missing values, encoding categorical data, feature selection, and data preprocessing before training.	7	M. Nagarishitha
5	Live Feature Demonstration	Demonstrate user input, applicant details (Age, Income, Credit Score, etc.) and show the prediction result (Approved or Rejected) in real time.	15	M. Nagarishitha
6	Results & Evaluation	Present the model accuracy, prediction results, and explain the project's overall performance and benefits.	8	M. Nagarishitha

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Introduce the project, team and problem, explain objective and scope
2	Solution Overview	Explain the solution architecture, modules and technology used
3	Live Feature Demonstration	Demonstrate key features: user input, prediction results and other functionalities.
4	Q&A Session	Address questions from the audience and conclude the demo
