Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS • I want my credit card application to be approved quickly. • I hope the approval process is fair and transparent. • I want to know why my application is approved or rejected.	THINKS • Will my credit score affect the approval? • Do I meet all the bank's eligibility criteria? • I hope my financial details are enough to get approved.
PERSONA NAME <i>(Role / User Type)</i>	
DOES • Fills out the credit card application form. • Provides personal, financial, and employment details. • Submits documents and tracks application status.	FEELS • Hopeful about getting approved. • Anxious about rejection. • Confused if requirements or reasons are unclear.
